LET US HELP
YOUR GUIDE TO FINANCIAL ASSISTANCE OPTIONS FOR ILUVIEN

AccessPlus Helps to Find Potential Programs for Patients to Assist with Out-of-Pocket Costs for ILUVIEN
Do you have commercial/private insurance and need help with your out-of-pocket cost for ILUVIEN?
The ILUVIEN CoPay Program provides co-pay assistance for eligible, commercially insured patients with out-of-pocket costs for ILUVIEN that exceed $25*

Eligibility requirements include:

- You are a resident of the United States or Puerto Rico
- ILUVIEN has been prescribed per FDA labeling
- You do not have any government-sponsored insurance coverage

To apply for the ILUVIEN CoPay Program:

- You or your physician can contact the AccessPlus Program by calling 1.844.445.8843, Option 3. We will help you complete the enrollment process.
- AccessPlus will contact your insurer to conduct a benefits investigation to help you understand your insurance coverage for ILUVIEN
- To determine if you are eligible for the program, you’ll be asked some questions that include:
  - What is your physician’s name, address and phone number?
  - What is the name of your commercial insurance carrier?
  - Have you been told that your insurance covers ILUVIEN but requires you to pay for a part of the cost?
  - What is your household income and how many are in your household?
  - Do you live in the US or Puerto Rico?
- Once enrolled and approved, you and your physician will receive a welcome letter; you may need to provide proof of income for your household (W2s, 1099s, pay stubs, etc.).
- At your ILUVIEN injection appointment, you will provide your portion of the copay (up to $25).

*The ILUVIEN CoPay Program does not apply to the patient cost sharing for the injection procedure, diagnostic tests or other costs associated with the administration of ILUVIEN.
Do you have insurance, such as Medicare or a Medicare Advantage Plan and need co-pay assistance for ILUVIEN?
Independent Nonprofit Co-Pay Foundations may provide co-pay assistance for insured patients.

If you have any health insurance, such as Medicare, Medicare Advantage or other insurance, AccessPlus can refer you to an independent co-pay foundation for assistance.

Co-pay foundations set their own eligibility criteria and approval process. We cannot determine or guarantee that you will be approved for financial assistance from a co-pay foundation.

AccessPlus can help you by:

• Finding foundations that are right for your situation
• Assisting you with the application process
• Keeping your physician informed of your application process and assistance options

Once you apply with a foundation, a representative from the foundation will call you to provide you with more information about their foundation and to ask you for additional information (such as insurance information, household income, and diagnosis) related to your treatment with ILUVIEN.
Are you uninsured, or do you have health insurance but ILUVIEN isn’t covered?
The ILUVIEN Patient Assistance Program may provide free drug for qualified uninsured and rendered uninsured patients.

Eligibility requirements include:

- You are a resident of the US or Puerto Rico
- You have no insurance or your insurance plan has said that it will not pay for ILUVIEN
- ILUVIEN has been prescribed per FDA labeling
- Your household income is less than 500% of the Federal Poverty Limit

(you may need to provide proof of income for your household with documentation such as current tax returns, 1099s, employer letter of income, W2, or pay stubs)

To apply for the ILUVIEN Patient Assistance Program:

- Complete the Patient Assistance Program application with your physician
- If you are determined eligible, you and your physician will receive an approval letter indicating that you may proceed with scheduling your injection appointment

*The ILUVIEN Patient Assistance Program does not provide assistance for the injection procedure, diagnostic tests or other costs associated with the administration of ILUVIEN.*
AccessPlus provides support and assistance for ILUVIEN patients with a financial need.
